Freedom of Information Request – Ref: FOI 09

**Can the Authority provide any details at this stage as to when they expect to go out to procurement for ASF? Does the Authority have an education and skills procurement pipeline that they are able to share?**

**We understand East Midlands Combined Authority are hosting engagement events to inform how they should manage ASF from 1st August 2025.**

**Are the Authority able to share PowerPoint slides from these events at this stage, or confirm expected procurement timelines for ASF?**

**I can confirm that the Authority holds the information that you have requested. No decisions have been made because the East Midlands Combined County Authority are currently going through our readiness conditions. There is some information which is readily accessible here: [Meetings and Decisions - East Midlands Combined County Authority \(eastmidlands-cca.gov.uk\)](https://www.eastmidlands-cca.gov.uk). which details the papers approved in June 2024 and includes our draft Strategic Skills Plan (SSP) and draft commissioning strategy which includes procurement.**

**However, in relation to the power point slides, these form part of the SSP and will be published in our Strategic Skills Plan, on our dedicated consultation section of our website. In this instance, we have applied section 22 exemption to the PowerPoint slides, therefore, are not obliged to provide the information at this point because they form part of the information intended for future publication at some later date (whether determined or not).**

**As this exemption is not an absolute exemption, in line with the terms of this exemption in the Freedom of Information Act. We have considered whether it would be in the public interest for us to provide you with the information ahead of publication, despite the exemption being applicable.**

**We have considered whether it would be in the public interest for us to provide you with the information ahead of publication, despite the exemption being applicable. Please find below the reasoning for and against disclosure.**

**We acknowledge that there is a general public interest in disclosing the PowerPoint slides from the engagement events to promote transparency and government accountability. That is why we aim to publish this information in due course.**

However, there are public interest arguments against disclosure of this information at the present time. These arguments include that it is in the public interest to adhere to the existing publication process. It is in the public interest to ensure that the publication of official information is a properly planned and managed process. The Combined County Authority must ensure that the information intended for publication meets the standards and requirements set for publications. Which include time for the information (which includes the slides and input) to be analysed and properly verified before being placed in the public domain.

The Authority recognises that private interests are not public interests. Therefore, it is also in the public interest to ensure that the information is available to all members of the public at the same time, and premature publication could undermine the principle of making the information available to everyone at the same time through the official publication process.

Publication before the planned date, in response to individual FOI requests, would undermine the Authority's pre-planned publication procedures and its ability to use staff resources in a way that avoids undermining reasonable publication timetables.

On this occasion, we have concluded that the balance of the public interest test falls in favour of withholding this information. Our decision is therefore to withhold the information until it is ready for publication.

Further guidance on the application of this exemption can be found at: <https://ico.org.uk/media/for-organisations/documents/1172/information-intended-for-future-publication-and-research-information-sections-22-and-22a-foi.pdf>

I hope this satisfies your request.
