Environmental Information Request – Ref: FOI/EI 26

**At the EM Hydrogen Summit in Loughborough on 8 November, Richard Grice gave a presentation on The Regional Strategy for Achieving Net Zero which included projections for demand and production of hydrogen upto 2050.**

**He did state that the study on which these projections were based could be made available, including the assumptions underlying the projections. This does not yet seem to have been circulated to participants.**

**Can you please let us have a copy of the study. Please consider this as a request under the Environmental Information Regulations.**

**The information requested is exempt under Regulation 12(4)(d) of the EIR (Material in the course of completion, unfinished documents, and incomplete data).**

**The study you referenced was completed by Cadent, it is still in final production and will be made available on the East Midlands Hydrogen website in the new year. A link will be sent to all conference attendees once it is available.**

I hope this satisfies your request.

If you are dissatisfied with this decision, you may write to request an internal review. The internal review will be carried out by someone who did not make the original decision, and they will re-assess how the Department handled the original request.

If you wish to request an internal review, please write or send an email to the Information Governance Team within two months of the date of this letter, at the following address:
