CLAIRE WARD
MAYOR OF THE EAST MIDLANDS

FOREWORD FROM THE MAYOR OF THE EAST MIDLANDS

It is an honour and a privilege to serve as the first Mayor of the East Midlands and to lead our region through this defining moment of opportunity and change.

I am pleased to introduce our draft Statement of Accounts for 2024/25, our first full financial year as a Combined County Authority. It reflects in financial terms, the strong foundation we've built, the progress we've made, and the scale of our ambition for the future.

We are showing that devolution works. By bringing decision-making closer to the communities we serve, we are better able to respond to local needs, invest in local priorities and unlock the full potential of our people and places.

Now, our focus is delivery.

We must deliver our Local Growth Plan. Deliver thousands of new homes and jobs. Deliver on our responsibilities over skills, transport, and infrastructure. Deliver clean energy investment and the benefits of the UK's only inland Freeport. Deliver meaningful change for communities right across our two great cities – Nottingham and Derby – and the towns and rural areas that make up this amazing region.

We are growing as an organisation. We are building the capability, leadership, and partnerships needed to take on new powers and new responsibilities. And we are ready to turn our shared vision into tangible results.

This report is a snapshot of a region in motion: ambitious, united, and ready to lead.

I am certain we can make the East Midlands the best place in the country to live, work, invest, and grow.

A handwritten signature in black ink that reads "Claire Ward". The signature is written in a cursive, flowing style.

FOREWORD FROM THE CHIEF EXECUTIVE

I am proud to be the first permanent Chief Executive of the East Midlands Combined County Authority. In presenting financial report, it marks a significant milestone in our journey, reflecting our collective ambition to transform the East Midlands into a region of inclusive growth, innovation, and opportunity.

Over the past year, we have laid the foundational structures necessary for effective governance and strategic delivery. Our focus has been on building robust partnerships across our constituent councils, businesses, and communities. These collaborations have been instrumental in shaping a unified vision for the region, one that aligns with our core values of lifting our region, making an impact, being human, and working together.

Our approach is underpinned by a commitment to systems leadership, ensuring that we work collaboratively across sectors to deliver meaningful outcomes. We are also dedicated to transparency and accountability, with mechanisms in place to measure our performance and adapt our strategies as needed. The year ahead will be a relentless focus on delivery. Our key priorities will include:

Skills and Employment: Completing the devolution of the £50m Adult Skills Fund. Delivering the Youth Guarantee Trailblazer to support young people into work and training. Mobilising flagship initiatives like the £44m Connect to Work programme. Launching a Good Employment Charter. And building cross-EMCCA partnerships, for example around the STEP fusion site in West Burton and the East Midlands Freeport, to help our residents get the skills they need to progress up the opportunity escalator.

Net Zero Transition: Identify, through the developing Local Area Energy Plan and digital twin, pathways to achieve net-zero carbon emissions and associated investment opportunities. Building on the successful delivery of the £9.8m retrofit fund, continue to identify, and support delivery of low carbon energy generation and energy efficiency projects in our public sector and communities. Advancing our commitment to sustainability through enabling investment in clean energy and green industries.

AMY HARHOFF
CHIEF EXECUTIVE
EAST MIDLANDS
COMBINED COUNTY
AUTHORITY

CONTINUED FROM THE CHIEF EXECUTIVE

Transport and Digital Connectivity: Improving infrastructure to ensure seamless connectivity across urban and rural areas. Delivering major new capital investment and developing a significant pipeline of further investment for a £2bn commitment from government. We will secure the transport transition, the first of its kind as a transport model and we will deliver our Mayors Transport Strategy setting the plans and vision for transport in the region.

Housing and Regeneration: Addressing housing needs and revitalizing communities through targeted development projects underpinned by the development of a spatial vision. We will continue to deliver our brownfield funding and seek further investment from government to leverage private funding. We will secure a strategic place partnership with Homes England, cementing a government to government partnership for housing growth.

Regional Strategy and Investment: Implementing our Strategic and Investment Framework to drive economic growth and attract private sector investment.

Leverage and making best use of resources: We will explore creative options for access to finance, including the relationship with the National Wealth Fund, British Business Bank, Private Pension Funds and LGPS. We will prepare our readiness to ensure that the East Midlands Benefits from greater financial flexibility including integrated settlement.

Our focus must be on delivering tangible benefits to the residents and businesses of the East Midlands. I am confident that, together, we can build a region that not only meets the challenges of today but also seizes the opportunities of tomorrow.

INTRODUCTION TO THE STATEMENT OF ACCOUNTS

The Code of Practice on Local Authority Accounting in the United Kingdom requires a Narrative Report to be published alongside the financial statements. The purpose of the narrative report is to provide information about the East Midlands Combined County Authority, its main objectives, and strategies, to provide a commentary on how the Combined County Authority has used its resources to achieve its desired outcomes, and to demonstrate how it is equipped to deal with the challenges ahead.

The Statement of Accounts brings together the major financial statements for the Combined County Authority for the financial year 2024/25. The financial statements, along with the notes that accompany them, aim to give a full and clear picture of the financial position of East Midlands Combined County Authority. The key contents of each section are as follows:

- **Statement of Responsibilities** – sets out the responsibilities of the Combined County Authority and the Chief Finance Officer in respect of the Statement of Accounts.
- **Comprehensive Income and Expenditure Statement** – shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices.
- **Movement in Reserves Statement** – this statement shows the movement in the year on the reserves held by the Combined County Authority.
- **Balance Sheet** – shows the value of the assets and liabilities recognised by the Combined County Authority as of 31 March 2025.
- **Cash Flow Statement** – summarises the inflows and outflows of cash, and cash equivalents, arising from transactions with third parties.
- **Notes to the Financial Accounts** - the various statements are supported by technical notes and by the Statement of Accounting Policies.

A separate **Annual Governance Statement** sets out how the Combined County Authority's governance arrangements comply with the principles of the Local Code of Governance (see link below).

[Annual Governance Statement 2024-25](#)

The narrative report sets the context for East Midlands Combined County Authority's financial statements for the financial year ending 31 March 2025.

1. About the East Midlands Combined County Authority

The East Midlands Combined County Authority (EMCCA) is a strategic regional government body in England, formally established on 28 February 2024. It covers the local authority areas of Nottinghamshire, Derbyshire, Nottingham, and Derby. It has powers devolved from central government under a devolution deal designed to support regional growth, infrastructure development, and economic inclusion.

The Combined County Authority is led by a directly elected Mayor of the East Midlands. Claire Ward was elected as the region's first Mayor in May 2024. EMCCA is responsible for a range of functions including transport, housing, skills, economic development, and net zero initiatives.

In June 2024, the Combined County Authority absorbed functions and staff from the D2N2 Local Enterprise Partnership, further consolidating its role in regional economic coordination.

As one of the UK's newest combined authorities, EMCCA plays a key role in delivering devolved powers in the East Midlands, aiming to boost productivity, reduce inequalities, and improve infrastructure connectivity across the region.

2. Overview of the Organisation

The Combined County Authority is made up of four founding members across the East Midlands. Each of the following four Constituent Authorities is represented by two nominated representatives or substitutes at Combined County Authority Board meetings:

Derby City Council
Derbyshire County Council
Nottingham City Council
Nottinghamshire County Council

The Combined County Authority Board decides the strategic direction of the organisation but seeks advice on its decisions from several other committees. Two thematic committees (Skills and Employment Committee and Transport and Digital Connectivity Committee) consider issues and provide advice to the Board on themes within their remit and the Investment Committee considers and provides advice to the Board on all proposed investments that are not in the remit of either of the other two thematic committees. There are two further specific advisory committees (the Business Advisory Board reflecting the voice of local business and the Innovation Advisory Board reflecting the voice of organisations involved in the Innovation sector). Additionally, one of the voting Board members is responsible, as Portfolio Holder, for

the views of the Rural and Farming Communities across the region to be brought into the Board's discussions.

The Combined County Authority came into being in late February 2024, and therefore much of the early part of the financial year was spent in recruiting to key roles and developing the required governance, systems, and processes that an organisation spending significant sums of public money needs to have in place. More latterly the Combined County Authority has spent time developing its future plans and making early investments in a range of projects covering economic development, transport, housing and skills.

A significant element of the devolution deal was the award of an Investment Fund. This fund for the East Midlands Combined County Authority is worth £38m a year, totalling £1.14bn over 30 years. From 2025/26 the Combined County Authority has also received a devolved adult skills budget of approximately £51m per year and expects to benefit from significant devolved transport funding through the City Region Sustainable Transport Settlement (CRSTS) of which £66m was awarded for 2025/26

Partway through the accounting period (in June 2024) the staff from the D2N2 Local Enterprise Partnership (LEP) transferred into the Combined County Authority and the functions of the LEP were thereafter delivered by the Combined County Authority. The final transfer of assets from the LEP to the Combined County Authority was agreed and took place in April 2025.

The Combined County Authority is a values-led organisation, as illustrated below.

Our people

At EMCCA, our people are our greatest asset. We are a diverse team of dedicated professionals committed to making a positive impact in the East Midlands. Our team members bring a wealth of experience, knowledge, and passion to their roles, working collaboratively to achieve our shared goals. We believe in continuous learning and development, ensuring that our staff have the skills and opportunities to grow and succeed.

Our values

At EMCCA, our values shape every decision we make and guide how we work together to create a thriving East Midlands.

Our culture

Our culture is built on collaboration, innovation, and respect. We foster an inclusive environment where every voice is heard and valued. By encouraging open communication and teamwork, we create a supportive atmosphere that drives creativity and excellence. Our commitment to work-life balance and employee well-being ensures that our team can thrive both personally and professionally.

We lift our REGION

We always put the **long-term prosperity** of the East Midlands region and its **people first** when carrying our roles and achieving **strategic outcomes**.

We make an IMPACT

We always make decisions that are **evidence-led** and which **strengthen our region systemically**. We hold ourselves to **account for our actions**.

We are HUMAN

We always take **pride in who we are** and the diversity we bring, communicating authentically and showing **genuine interest in one another**.

We work TOGETHER

We always **challenge each other** to be exceptional, **embracing collaboration** and **acting to lift** rather than win, working as **one team**.

3. Achievements during 2024/25 and into 2025/26

The Mayor and EMCCA have had a successful first year, bringing in more investment into the region to help deliver better jobs, better skills, build new homes, improve transport, support a greener East Midlands, and champion our visitor economy. This has resulted in millions more in funding, that would not have been received if the region did not have an elected Mayor.

In 2024/25, EMCCA was successful in securing funding from Government totalling over £100m, the majority of which (around 75%) being for capital projects. This has helped to provide significant funding for councils in the region to maintain and improve the state of their roads, including potholes, as well as committing funding to create new homes on brownfield sites and invest in major regeneration projects, such as Broadmarsh in Nottingham and the South Derbyshire Growth Zone.

Key Achievements by strategic theme

Strategic Growth and Economic Development

- In May 2025, EMCCA unveiled a bold Vision for Growth focused on economic transformation, inclusive opportunity, and long-term investment based on extensive groundwork undertaken in 2024/25
- At UKREiiF 2025, EMCCA launched a coordinated regional pitch to investors, showcasing the Trent Arc, Supercluster, and Canal Corridor as the region's flagship development opportunities, again based on extensive work in 2024/25
- Millions were secured for the East Midlands Investment Fund to allocate to six projects for the year 2024/25, including the part demolition of the Broad Marsh shopping centre in Nottingham and the transformation of the Derby City Urban Quarter.

Skills and Education

- EMCCA was confirmed to take control of the Adult Skills Fund from August 2025, enabling more responsive and localised training provision.
- Major skills programmes are in development to support sectors such as green energy, logistics, and advanced manufacturing.
- The region will also benefit from £3.58m in 2025/26 through the new Connect to Work programme, helping thousands of people with long-term health conditions get back into employment.
- EMCCA approved the new Youth Guarantee Trailblazer scheme to support young people aged 18 to 21 to get the job or course they really want.
- The Mayor has also brought young people into decision making for the region, with the creation of the first-ever East Midlands Youth Committee.
- The Panjango platform was launched in March 2025 to connect students with careers in the local economy.

Infrastructure and Transport

- It was announced that hundreds of millions will go towards improving bus services, road safety, and daily commutes — including £88m in extra money secured thanks to the Mayor's efforts.
- As part of the devolution deal, the region secured £1.5bn for local transport investment, now being programmed through the Local Transport Strategy.
- Planning work continues on priority projects such as enhanced connectivity to East Midlands Airport, a new River Trent crossing, and a tram extension to East Nottingham.
- In High Peak, over 30,000 free bus journeys have already been taken in the first three months of the Mayor's new 'High Peak Pass', helping young people get to college and training.

Housing and Regeneration

- The Mayor launched a brownfield housing initiative targeting 1,400 new homes across key sites in Derbyshire and Nottinghamshire.
- Nottingham's Broadmarsh regeneration programme – the largest city centre transformation in the UK – advanced, with new partnerships formed and delivery planning underway.
- The region continued to explore opportunities for low-carbon development, town centre renewal, and investment-backed placemaking.

Freeport and Investment Zone

- The East Midlands Freeport, the UK's only inland Freeport, officially launched in March 2023 and has since expanded its proposition around clean energy and logistics.
- The East Midlands Investment Zone (EMIZ), announced in October 2024, includes three tax and business rate retention sites at Explore Park, Staveley, and Infinity Park Derby.
- These designations are supported by a £160m funding package, with an emphasis on innovation, skills, and infrastructure development across green industries and advanced manufacturing.

Community, Engagement and Events

- Mayor Claire Ward launched a 150-mile walking tour across the East Midlands, highlighting local stories and listening to communities.
- The Hospitality Connect event in March linked local schools to Nottingham's hospitality sector, creating clear pathways into employment.
- Community partnerships were strengthened across the Peaks, Dales, and Heartlands through the EMCCA Loop Trail initiative.
- The brand-new Mayoral Community Fund was announced, designed to support some of the region's most disadvantaged areas and support them to strengthen local communities and help them grow.
- The Mayor also secured another £140m from the government to help regenerate local communities, with Carlton, Chesterfield, Clifton, Kirkby in Ashfield, Mansfield, Newark, and Worksop all getting £20m each over the next decade.

Governance and Collaboration

- EMCCA signed a Midlands Mayors Compact in March, signalling a united approach to regional growth and national influence.
- A Risk Management Framework was adopted to support good governance and delivery confidence across

4. Governance

East Midlands Combined County Authority is responsible for ensuring that its business is conducted in accordance with the law and proper standards and that public money is safeguarded and properly accounted for and used economically, efficiently, and effectively. The Combined County Authority also has a duty under the Local Government Act 1999 to secure continuous improvement in the way in which its functions are exercised.

In discharging this overall responsibility, the Combined County Authority is responsible for putting in place proper arrangements for the governance of its affairs and facilitating the effective exercise of its functions, including arrangements for the management of risk. These arrangements are described in more detail in the Annual Governance Statement (AGS) 2024/25 that will be presented to Audit Committee on 11 July 2025.

5. Corporate Plan

During 2024/25 the Combined County Authority developed its first Corporate Plan which was approved by the Board in March 2025. In the future refreshes of the Corporate Plan will include objectives determined by the Inclusive Growth Commission, which the Combined County Authority commissioned during 2024/25. The approved Corporate Plan includes the vision, strategic priorities, and the overall approach of the Combined County Authority to enable our ambitions to be realized. [The Corporate Plan can be viewed here.](#)

The Corporate Plan 2025/26 sets out ten strategic priorities:

1. Growing our economy
2. Better transport links
3. A greener future
4. Fairer opportunities
5. Better jobs, higher pay
6. Healthier lives
7. Skills for success
8. More green spaces
9. Stronger infrastructure
10. More local control

6. Financial Performance 2024/25

Revenue Outturn Position 2024/25

The following table below provide a brief overview of the Combined County Authority's outturn against its revenue budget for 2024/25.

Expenditure Category	Original Budget 2024/25	Outturn 2024/25	Variance
	£'000	£'000	£'000
Employees	6,310	7,776	1,466
Premises	0	97	97
Travel	45	32	(13)
Supplies and Services	10,162	7,608	(2,554)
Third Party Payments	4,000	5,585	1,585
Expenditure Total	20,517	21,098	581

Income Category	Original Budget 2024/25	Outturn 2024/25	Variance
	£'000	£'000	£'000
Investment Fund	(19,000)	(19,000)	0
Grants	(9,087)	(8,857)	230
Contributions/Reimbursements	0	(122)	(122)
Other Income	(500)	(3,526)	(3,026)
Contribution to/(from) Reserves	8,070	8,552	482
Income Total	(20,517)	(22,954)	(2,437)

Net Expenditure	(0)	(1,856)	(1,856)
------------------------	------------	----------------	----------------

There was an underspend in 2024/25 of £1.9m which was largely due to additional income received in bank interest and investments of £3m offset by a reduction in income of £0.9m from the Public Transport Contribution budgeted for not charged in the 2024/25 financial year.

Following Board agreement on 16 June 2025, this underspend has been transferred to the General Reserves (£1.4m) and to the New Programmes Fund Reserve (£0.5m) which is used to fund new programmes and initiatives

Capital Outturn 2024/25

In 2024/25, EMCCA incurred a total capital spend of £60.7m against a revised budget of £91.6m, resulting in an overall underspend of £30.9m. This variance is reprofiled and now committed into the 2025/26 financial year, as EMCCA continues to lay the foundations for scalable and sustainable investment across the East Midlands.

The breakdown is provided in the table below. It shows spend across key strategic initiatives including housing, transport, investment zones, and green infrastructure. Several legacy LEP-funded projects are still being transitioned into EMCCA's responsibility for delivery from 2025/26.

	Projects	Original Budget	Revised Budget	Outturn	Forecast Over/ (Underspend)
		£'000	£'000	£'000	£'000
REFCUS Projects	Brownfield Housing Fund	8,400	8,415	0	(8,415)
	Devolved Investment Fund - Capital	17,000	19,000	0	(19,000)
	Transport Highways Funded Projects	0	51,626	51,626	0
	Legacy LEP Projects	0	1,842	0	(1,842)
	Investment Zones	0	550	282	(269)
	Pre-Devolution Funded Projects	9,750	9,750	8,340	(1,410)
	Unallocated Surplus	2,000	0	0	0
	REFCUS sub-total	37,150	91,184	60,248	(30,936)
Capital Projects	IT Equipment/Laptops	0	428	428	0
	Capital Expenditure sub-total	0	428	428	0
	REFCUS and Capital Total	37,150	91,612	60,675	(30,936)

EMCCA's capital programme is classified in two ways (for accounting purposes): Revenue Expenditure Funded from Capital Under Statute (REFCUS) and Capital Expenditure.

REFCUS refers to capital funding applied to assets not owned by EMCCA, such as grants or investments made to third parties (typically constituent councils or delivery partners) for projects that meet capital criteria. These projects are aligned with EMCCA's collaborative delivery model, where investment is routed through local authorities or regional bodies. Consequently, the bulk of the 2024/25 spend is classified as REFCUS. Capital Expenditure, on the other hand, relates to assets directly owned or acquired by EMCCA, such as IT equipment or other physical infrastructure under EMCCA's control.

The £60.7m capital expenditure incurred in 2024/25 was funded from a combination of government grants and internal capital reserves. The funding sources applied are summarised below:

C/Fwd 23/24 (Pre-Devolution Investment Fund)	Transport Grants	Investment Zones	23/24 Capital Reserves	Total 23/24 Capital Outturn Funding
£'000	£'000	£'000	£'000	£'000
8,340	51,626	282	428	* 60,675

* Figures are rounded to the nearest thousand and may not sum precisely due to rounding.

The Combined County Authority can maintain a balanced and affordable budget and to continue to operate for the foreseeable future. The Combined County Authority has undertaken cash flow modelling which demonstrates the Combined County Authority does not have any liquidity concerns over the next 12 months. It is therefore appropriate to prepare the financial statements on a going concern basis.

I am pleased to present the East Midlands Combined County Authority's financial statements for the year ended 31 March 2025.

Richard Williams

Executive Director of Resources (S73)

INDEPENDENT AUDITOR'S REPORT TO MEMBERS OF THE EAST MIDLANDS COMBINED COUNTY AUTHORITY

Report on the audit of the financial statements

Opinion on the financial statements

We have audited the financial statements of East Midlands Combined County Authority ("the Authority") for the year ended 31 March 2025, which comprise the Comprehensive Income and Expenditure Statement, the Movement in Reserves Statement, the Balance Sheet, the Cash Flow Statement, and notes to the financial statements, including material accounting policy information.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024/25.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the Authority as at 31st March 2025 and of its expenditure and income for the year then ended; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024/25.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Authority in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Executive Director of Resources' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, and taking into account the requirements of the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024/25, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Authority's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Executive Director of Resources with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the Annual Governance Statement and information included in the Statement of Accounts, other than the financial statements and our auditor's report thereon. The Executive Director of Resources is responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of the Executive Director of Resources for the financial statements

As explained more fully in the Statement of the Responsible Finance Officer's Responsibilities, the Executive Director of Resources is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024/25, and for being satisfied that they give a true and fair view. The Executive Director of Resources is also responsible for such internal control as the Chief Financial Officer Executive Director of Resources determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Executive Director of Resources is required to comply with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024/25 and prepare the financial statements on a going concern basis on the assumption that the functions of the Authority will continue in operational existence for the foreseeable future. The Executive Director of Resources is responsible for assessing each year whether or not it is appropriate for the Authority to prepare its accounts on the going concern basis and disclosing, as applicable, matters related to going concern.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

Based on our understanding of the Authority, we considered that non-compliance with the following laws and regulations might have a material effect on the financial statements: employment regulation, health and safety regulation, anti-money laundering regulation, data protection, corruption and anti-bribery.

To help us identify instances of non-compliance with these laws and regulations, and in identifying and assessing the risks of material misstatement in respect to non-compliance, our procedures included, but were not limited to:

- gaining an understanding of the legal and regulatory framework applicable to the Authority, the environment in which it operates, and the structure of the Authority, and considering the risk of acts by the Authority which were contrary to the applicable laws and regulations, including fraud;
- inquiring with management and the Audit and Governance Committee, as to whether the Authority is in compliance with laws and regulations, and discussing their policies and procedures regarding compliance with laws and regulations;
- inspecting correspondence, if any, with relevant licensing or regulatory authorities;
- reviewing relevant meeting minutes in the year;
- communicating identified laws and regulations throughout our engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- considering the risk of acts by the Authority which were contrary to applicable laws and regulations, including fraud.

We also considered those laws and regulations that have a direct effect on the preparation of the financial statements, such as the Local Government Act 2003 (and

associated regulations made under section 21), the Local Government Finance Acts of 1988, 1992 and 2012, and the Accounts and Audit Regulations 2015.

In addition, we evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to [posting manual journal entries to manipulate financial performance, and significant one-off or unusual transactions].

Our audit procedures in relation to fraud included but were not limited to:

- making enquiries of management, Internal Audit and the Audit and Governance Committee on whether they had knowledge of any actual, suspected or alleged fraud;
- gaining an understanding of the internal controls established to mitigate risks related to fraud;
- discussing amongst the engagement team the risks of fraud; and
- addressing the risks of fraud through management override of controls by performing journal entry testing.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud, rests with both management and the Audit and Governance Committee.

As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

We are also required to conclude on whether the Executive Director of Resources' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. We performed our work in accordance with Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom, (Revised 2024) and Supplementary Guidance Note 01, issued by the National Audit Office in November 2024.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on the Authority’s arrangements for securing economy, efficiency, and effectiveness in its use of resources

Matter on which we are required to report by exception

We are required to report to you if, in our view we are not satisfied that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2025.

On the basis of our work, having regard to the guidance issued by the Comptroller and Auditor General in November 2024, we have identified the following significant weakness in the Council’s arrangements for the year ended 31 March 2025:

Significant weakness in arrangements	Recommendation
During 2024/25 the Authority did not have an approved performance management framework. In our view this is evidence of a significant weakness in arrangements for improving economy, efficiency, and effectiveness in the Authority’s use of resources.	The Authority should develop, approve, and implement a performance management framework that enables the Authority to plan, monitor, and take appropriate action to ensure the Authority achieves its strategic objectives.

Responsibilities of the Authority

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency, and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor’s responsibilities for the review of arrangements for securing economy, efficiency, and effectiveness in the use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency, and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority’s arrangements for securing economy, efficiency, and effectiveness in its use of resources are operating effectively.

We have undertaken our work in accordance with the Code of Audit Practice, having regard to the guidance issued by the Comptroller and Auditor General in November 2024.

Matters on which we are required to report by exception under the Code of Audit Practice

We are required by the Code of Audit Practice to report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014;
- we make a recommendation under section 24 of the Local Audit and Accountability Act 2014; or
- we exercise any other special powers of the auditor under sections 28, 29 or 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

Use of the audit report

This report is made solely to the members of East Midlands Combined County Authority as a body, in accordance with part 5 of the Local Audit and Accountability Act 2014 and the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the members of the Authority those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members of the Authority, as a body, for our audit work, for this report, or for the opinions we have formed.

Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate until we have received confirmation from the NAO that the group audit of the Whole of Government Account has been completed and that no further work is required to be completed by us.

Mark Surridge, Key Audit Partner
For and on behalf of Forvis Mazars LLP

STATEMENT OF RESPONSIBILITIES

1. The Combined County Authority's Responsibility

The Combined County Authority is required to:

(i) Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. These responsibilities are discharged through the role of the Responsible Finance Officer. This is the Executive Director of Resources (Section 73 Officer).

(ii) Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.

(iii) Approve the Statement of Accounts.

2. The Responsible Finance Officer's Responsibility

The Responsible Finance Officer is responsible for the preparation of the Combined County Authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Responsible Finance Officer has:

- Selected suitable accounting policies and then applied them consistently.
- Made judgements and estimates that were reasonable and prudent.
- Complied with the Local Authority Code.
- Kept proper accounting records which were up to date.
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

3. Certification of the accounts

I certify that this Statement of Accounts gives a true and fair view of the financial position of the Combined County Authority at the reporting date and of its income and expenditure for the year ended 31 March 2025.

Richard Williams
Executive Director of Resources & Responsible Finance Officer
Date: 27 February 2026

4. Approval of the Accounts

I certify that the audited Statement of Accounts covering the period 1 April 2024 to 31 March 2025 were approved by a resolution of the Audit and Governance Committee on 27 February 2026

Shail Shah
Independent Chair of the Audit and Governance Committee
Date: 27 February 2026

CORE STATEMENTS

Comprehensive Income and Expenditure Statement (CIES)

The Comprehensive Income and Expenditure Statement shows the cost of providing services in accordance with generally accepted accounting practice. The reconciliation from the accounting cost to the funding position is shown in both the Expenditure and Funding Analysis (note 14) and the Movement in Reserves Statement. The other operating income refers to the residual part of a loan that became the responsibility of EMCCA when taking over the functions of the Local Enterprise Partnership.

Note: Due to presentation of figures to the nearest £'000, the numbers in this and subsequent tables may show minor rounding differences

2023/24				2024/25

Movement in Reserves Statement

The Movement in Reserves Statement shows the movement from the beginning to the end of the financial year on the reserves held by the Combined County Authority. These are analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure) and other 'unusable reserves' (i.e. those that cannot be used to fund expenditure). This statement shows how the movements in year are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments to return to the amounts to be funded from resources.

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities of the Combined County Authority. The net assets (assets less liabilities) are matched by the reserves held by the Combined County Authority. As noted above, reserves are either deemed 'usable' or 'unusable'.

The first category of reserves are usable reserves, i.e. those reserves that may be used to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use. The second category of reserves are unusable reserves that the Combined County Authority is not able to use to provide services. This category of reserves includes reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between Accounting Basis and Funding Basis under regulations'.

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Combined County Authority during the reporting period. The statement shows how the Combined County Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is the key indicator of the extent to which the operations of the authority are funded by way of grant income or from the recipients of services provided by the Combined County Authority.

2023/24 £'000		Notes	2024/25 £'000
29,743	Net (Surplus) or Deficit on the Provision of Services	13	23,121
(29,743)	Adjust net Surplus/(Deficit) on Provision of Services for non-cash movements	25.1	56,785
0	Net cashflow from Operating Activities		79,906
0	Investing Activities	25.2	(428)
0	Net (Increase) / Decrease in Cash & Cash Equivalents		79,478
0	Cash & Cash Equivalents at the start of the year		0
0	Increase / (Decrease) in Cash & Cash Equivalents		79,478
0	Cash & Cash Equivalents at the end of the year	19	79,478

1. Accounting Policies

1.1. General principles and accounting concepts

The Statement of Accounts summarises the Combined County Authority's transactions and its position for the year end of 31 March 2025. The Combined County Authority is required to prepare annual Statement of Accounts by the Accounts and Audit Regulations 2015, following the appropriate accounting standards as required by the Code of Practice on Local Authority Accounting in the United Kingdom 2024/25 (the Code). These practices primarily comprise the Code of Practice on Local Group

Accounting in the United Kingdom 2019/20, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the statement of accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

1.2. Going concern

The concept that the Authority will remain in operational existence for the foreseeable future, that the revenue accounts and balance sheet assume no intention to curtail significantly the scale of operations.

1.3. Accruals of income and expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed. Where there is a gap between the date supplies are received and their consumption, they are shown on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure based on the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is

written down and a charge made to revenue in financing and investment income and expenditure for the income that might not be collected.

1.4. Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand.

1.5. Prior period adjustments, changes in accounting policies and estimates and errors

Prior period adjustments may arise because of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment. Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Group's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

1.6. Employee benefits

1.6.1. Benefits payable during employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, and non-monetary benefits for current employees and are recognised as an expense for services in the year in which employees render service to the Combined County Authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end that employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to surplus or deficit on the provision of services but then reversed out through the Movement in Reserves Statement to the accumulated absences account so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

1.6.2. Termination benefits

Termination benefits are amounts payable as a result of a decision by the Combined County Authority to terminate an officer's employment before the normal retirement

date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the Non-Distributed Costs line in the Comprehensive Income and

Expenditure Statement at the earlier of when the Group can no longer withdraw the offer of those benefits or when the Group recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Group to the pension fund or pensioner in the year.

1.6.3. Post-employment benefits

Permanent employees of the Combined County Authority are members of the Local Government Pensions Scheme, administered by Nottinghamshire County Council.

The scheme provided defined benefits to members (retirement lump sums and pensions), earned as employees worked for the authority.

The Local Government Pension Scheme (LGPS)

The Scheme is accounted for as a defined benefits scheme.

The liabilities of the pension fund attributable to the Combined County Authority are included in the balance sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projected earnings for current employees. In assessing the liabilities at 31 March 2025 for the 2024/25 Statement of Accounts, the actuary made some assumptions using projected unit methods to calculate discount rate of 5.95%. The actuary also adopted a set of demographic assumptions that are consistent with those used for the most recent Fund valuation, which are carried out as at 31 March 2022, except for an update of the CMI projection model.

The assets of the pension fund attributable to the authority are included in the Balance Sheet at their fair value:

- Public Equities – current bid price
- Other bonds – professional estimate
- Gilts – current bid price
- Property – market value.

The change in the net pensions' liability is analysed into the following components:

- Current service cost: the increase in liabilities because of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked
- Past service cost: the increase in liabilities because of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement

- Net interest on the defined benefits liability (asset), i.e. net interest expense for the authority – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the financing and investment income and expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

Discretionary benefits

The Combined County Authority also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

1.7. Events after the reporting period

Events after the Balance Sheet reporting period are those events, both favourable and unfavourable, that occur between the Balance Sheet date and the date when the statement of accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the statement of accounts is adjusted to reflect such event.
- those that are indicative of conditions that arose after the reporting period – the statement of accounts is not adjusted to reflect such events, but where such a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the statement of accounts

1.8. Financial Instruments

1.8.1. Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Combined County Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most borrowings, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the CIES is the amount payable for the year according to loan agreement. During 2024/25 the Combined County Authority had no borrowing.

1.8.2. Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. There are three main classes of financial assets measured at:

- amortised cost
- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI, where the authority holds or has designated such financial instruments).

Financial assets are classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

1.8.2.1. Financial assets measured at amortised cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Combined County Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the financing and investment income and expenditure line in the CIES for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Combined County Authority, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest), and interest credited to the CIES is the amount receivable for the year in the loan agreement.

Interest is credited to the financing and investment income and expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund balance is managed by a transfer to or from the financial instrument adjustment account in the Movement in Reserves Statement.

Any gains and losses that arise on the derecognition of a financial asset are credited or debited to the financing and investment income and expenditure line in the CIES.

1.8.2.2. Financial assets measured at Fair Value through Other Comprehensive Income (FVOCI)

Financial assets that are measured at (FVOCI) are recognised on the Balance Sheet when the Combined County Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in other comprehensive income.

1.8.2.3. Financial assets measured at Fair Value through Profit or Loss (FVPL)

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Combined County Authority becomes a party to the contractual provisions

of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in the surplus or deficit on the provision of services.

1.8.2.4. Fair value measurements of financial assets

Fair value of an asset is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurements of the Combined County Authority's financial assets are based on the following techniques:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the Combined County Authority can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement.

1.8.3. Expected credit loss model

The authority recognises expected credit losses on all of its financial assets held at amortised cost [or where relevant FVOCI], either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Combined County Authority.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed based on 12-month expected losses.

The authority currently has one loan to a local business inherited from the Local Enterprise Partnership (LEP). During 2024/25 this was subjected to independent valuation for fair value and included in the accounts.

1.8.4. Fair value measurement of non-financial assets

The Combined County Authority's accounting policy for fair value measurement of financial assets is set out in note 22. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the

measurement date. The fair value measurement assumes that the transaction to sell the asset takes place either:

- a) in the principal market for the asset, or
- b) in the absence of a principal market, in the most advantageous market for the asset.

The Combined County Authority measures the fair value of an asset using the assumptions that market participants would use when pricing the asset, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Combined County Authority takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Combined County Authority uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets for which fair value is measured or disclosed in the Combined County Authority's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets that the Combined County Authority can access at the measurement date
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly
- Level 3 – unobservable inputs for the asset

1.9. Government grants and contributions

Whether paid on account, by instalments or in arrears, government grants and third-party contributions and donations are recognised as due to the Combined County Authority when there is reasonable assurance that:

- The authority will comply with the conditions attached to the payments, and
- The grants or contributions will be received.

Amounts recognised as due to the Combined County Authority are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied.

Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or taxation and non-specific grant income and expenditure

(non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the capital grants unapplied reserve. Where it has been applied, it is posted to the capital adjustment account. Amounts in the capital grants unapplied reserve are transferred to the capital adjustment account once they have been applied to fund capital expenditure.

1.10. Intangible assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Combined County Authority as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Combined County Authority.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Combined County Authority will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Combined County Authority's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets can be determined by reference to an active market. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the other operating expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund balance. The gains and losses are therefore reversed out of the General Fund balance in the Movement in Reserves Statement and posted to the capital adjustment account and (for any sale proceeds greater than £10,000) the capital receipts reserve.

1.11. Long-term contracts

Long-term contracts are accounted for on the basis of charging the surplus or deficit on the provision of services with the consideration allocated to the performance

obligations satisfied based on the goods or services transferred to the service recipient during the financial year.

1.12. Overheads and support services

The costs of overheads and support services are charged to service segments in accordance with the Combined County Authority's arrangements for accountability and financial performance.

1.13. Property, plant and equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and that are expected to be used during more than one financial year are classified as property, plant and equipment. Depreciation is provided for on all property, plant and equipment assets by the systematic allocation of their depreciable amounts over their useful lives.

In 2024/25 the Combined County Authority only held IT and office equipment assets (note 16). These assets will be depreciated over their useful lives which has been assessed as 5 years starting the year after purchase from 2025/26.

The Combined County Authority are seeking Audit and Governance approval in July 2025, on their capital expenditure de-minimis level, which will be reflected in the final accounts.

1.14. Provisions, contingent liabilities and contingent assets

1.14.1. Provisions

Provisions are made where an event has taken place on or before the Balance Sheet date that gives the Combined County Authority a present obligation

- that probably requires settlement by a transfer of economic benefits or service potential, and
- where a reliable estimate can be made of the amount of the obligation.

If it is not clear whether an event has taken place on or before the Balance Sheet date, it is deemed to give rise to a present obligation if, taking account of all available evidence, it is more likely than not that a present obligation exists at the Balance Sheet date. The present obligation can be legal or constructive.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement when the Combined County Authority has an obligation and are measured at the best estimate at the Balance

Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

Estimated settlements are reviewed at the end of each financial year. Where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Combined County Authority settles the obligation. There are no provisions recognised in the year.

1.14.2. Contingent liabilities

A contingent liability arises where an event has taken place that gives the Combined County Authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Combined County Authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required, or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts. There are no contingent liabilities to be disclosed in the year.

1.14.3. Contingent assets

A contingent asset arises where an event has taken place that gives the Combined County Authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Combined County Authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential. There are no contingent asset to be disclosed in the year.

1.15. Reserves

The Combined County Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by transferring amounts out of the General Fund balance. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Combined County Authority – these reserves are explained in the relevant policies.

1.16. Revenue expenditure funded from capital under statute (REFCUS)

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Combined County Authority has determined to meet the cost of this expenditure from existing capital resources or by

borrowing, a transfer in the Movement in Reserves Statement from the General Fund balance to the capital adjustment account then reverses out the amounts charged.

1.17. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from HMRC. VAT receivable is excluded from income.

2. Accounting Standards Issued But Not Yet Adopted

At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the Code of Practice of Local Authority Accounting in the United Kingdom:

- Amendments to IAS 21 - The effects of Changes in Foreign Exchange Rate (Lack of Exchangeability) was issued August 2023.
- Amendments to IAS 1 - Classification of Liabilities as Current or Non-current was issued January 2020.
- Amendments to IFRS 16 - Lease Liability in a Sale and Leaseback was issued September 2022.
- Amendments to IAS 1 - Non-current Liabilities with Covenants was issued October 2022.
- Amendments to IAS12 - International Tax Reform: Pillar was issued in May 2023.
- Amendments to IAS 7 and IFRS 7 - Supplier Finance Arrangements was issued May 2023.
- IFRS 17 replaces IFRS 4 - Insurance Contracts accounting arrangements was issued May 2017.
- Amendments to IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets.

None of these changes are anticipated to have a material impact on the Combined County Authority's financial performance and financial position.

3. Critical Judgement in Applying Accounting Policies

In applying the accounting policies set out above, the Combined County Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- Several Capital grants have been received. A judgement has been required for each one, and although some of the grants have been ring fenced for specific purposes, not all of these have conditions in place that satisfy the requirements of the Code to treat the unspent elements of the grants as Capital Grant Receipts in Advance. Unspent capital grant funding in relation to these grants has been accounted for in the CIES and transferred to the Capital Grants Unapplied Reserve.
- EMCCA is a member of the Local Government Pension Scheme administered by Nottinghamshire County Council. As of 31 March 2025, the scheme was in a

net asset position. Accounting regulations restrict the value of the asset that can be shown on the balance sheet to the maximum economic benefit that is available from refunds, reductions in future contributions or a combination of both. This is called an Asset Ceiling calculation. As the Combined County Authority is not entitled to refunds from the scheme, the Actuary has been asked to provide an Asset Ceiling Calculation as a reduction in future contributions based on the present value of future service costs less the present value of future service contributions. The Asset Ceiling was higher than the net pensions asset, so the full amount has been recognised as an asset within Long Term Investments in the Balance Sheet.

- EMCCA has undertaken cash flow modelling which, taking account of the cash and cash equivalent balances of £79.5m as at 31 March 2025 and forecast cash balances and cash equivalent balances up to 31 March 2026 demonstrates there are no liquidity concerns over the next 12 months from date of authorisation. It is therefore appropriate to prepare the financial statements on a going concern basis

4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

Pension Asset – Estimation of the net liability to pay pensions depends on many complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates, the growing number of permanent employees and expected returns on pension fund assets.

5. External Audit Cost

The Combined County Authority accrued for £146k in 2024/25 in relation to the audit of the Statement of Accounts provided by the Combined County Authority's external auditors, Forvis Mazars LLP. They were not appointed to audit the 2023/24 accounts until 13 June 2025, and nothing was accrued for audit fees in 2023/24. The actual costs shown in the following table were significantly higher due to additional work being required. The additional amounts will be paid for in 2025/26.

2023/24 £'000	Fees Payable	2024/25 £'000
49	Fees payable with regards to external audit services carried out by the appointed auditors for the year	211
30	Additional fees due to being a new organisation	31
79	Total	242

6. Mayor's and Members' Allowances

The Mayor is the only member of the Board who receives an allowance from EMCCA, although the position of Deputy mayor is also remunerated if the position is held by an elected member that is not the Leader of a Constituent Council. Regulatory Committee Members also receive allowances, this includes the Independent Chair of Audit &

Governance Committee and the Committee membership and the Chair of Overview & Scrutiny Committee and the Committee membership. Leaders and Constituent Members are required to be remunerated by their own authorities.

2023/24 £'000	Members Allowances	2024/25 £'000
0	Allowances	113
0	Expenses	5
0	Total	118

7. Officers' Remuneration

The Account and Audit Regulations 2015 require the disclosure of certain details relating to employees whose remuneration was £50,000 or more. Additional disclosures are required relating to the organisation's Senior Officers, both permanent and interim.

Senior Employees

Senior Officers earning less than £150,000 are disclosed individually by job title. Those whose remuneration is £150,000 or more are identified by name. This applies to both permanent and interim postholders as all postholders listed contributed to the delivery of core services within the Combined County Authority.

It is important to note that interim staff are not entitled to benefits available to permanent employees, such as pension contributions, paid annual leave, or sick pay. The reported costs for interim staff exclude agency fees, which are accounted for separately and based on the agency rate advised under the Local Government Resourcing Partnership (LGRP) framework. The figures shown are payments made by EMCCA to the agency (fees plus expenses where applicable), net of the agency fee. Further deductions are taken such as Employer National Insurance contributions, the Apprenticeship Levy, and the umbrella company's margin, before determining the pay received by the interim officer. These further deductions are not shown. Interim employees constituted most of the workforce during its first year. This reflects the need to establish the organisation, including its structures, governance and senior staffing needs, requiring expert and specialist resources to do so.

The Combined County Authority embarked on a significant "Path to Permanence" recruitment drive during 2024/25 for senior and other staff in the organisation. This is now significantly reducing the ratio of interim to permanent staff. Amy Harhoff, EMCCA's first permanent Chief Executive started work in early February 2025, and in March 2025 three permanent Executive Directors were appointed, and they commenced work early in 2025/26. Further senior staff are being recruited at Director and Head of Service level during Spring and Summer 2025.

Senior Employee Remuneration

2023/24 Salary, fees and allowances £'000	Roles	Names	2024/25			Dates of Employment
			Salary, Fees and Allowances £'000	Pension Contributions £'000	Total Authority £'000

The Authority's other employees receiving more than £50,000 remuneration which included exit packages for the year (excluding pension contributions) were paid the following amounts.

The Combined County Authority's permanent employees receiving more than £50,000 remuneration which included exit packages for the year (excluding pension contributions) were paid the amounts in the table above.

Interim officers, including senior officers, whose remuneration were over £50,000 but less than £150,000 are shown in this table. These remuneration has been determined by excluding agency fees. Agency fees for this purpose is assumed to be the LGRP framework rate.

Permanent Employees

11. Related Parties

The Combined County Authority is required to disclose material transactions with related parties – bodies or individuals that have potential to control or influence the Combined County Authority or to be controlled or influenced by the Combined County Authority. Disclosure of these transactions allows readers to assess the extent to which the Combined County Authority might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Combined County Authority.

Central Government

Central Government has significant influence over the general operations of the Combined County Authority. It is responsible for providing the statutory framework within which the Combined County Authority operates and provides funding in the form of grants. Grants received from Government Departments together with receipts not yet recognised due to conditions attached to them on 31 March 2025 are set out in note 10. A summary of material transactions by Central Government Departments are shown in the next table.

Government Department	£'000
Department for Transport	66,389
Ministry of Housing, Communities and Local Government	51,843
Department for Education	2,783
Department for Business and Trade	426
Department for Work & Pensions	100
Total	121,541

Members

Members of the Combined County Authority have direct control over the financial and operating policies. The total of members allowances paid in 2024/25 is shown in note 6. All members have at least two roles under the Local Government Act 1985 in that they are members of one of the four constituent County and City Councils and are appointed to the Combined County Authority or co-opted to one of its committees. There was no conflict of interest declared.

Officers

There were no significant transactions between the officers and other related parties during the year or conflict of interest declared.

Other Public Bodies

	Devolved Transport Funding £'000	Place £'000	Strategy and Inclusive Growth £'000	Resources, CEX, Mayor £'000	Total £'000

12. Adjustment between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total Comprehensive Income and Expenditure Statement (CIES) recognised by the Combined County Authority in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Combined County Authority to meet future capital and revenue expenditure

	Notes	General Reserve £'000	Capital Grants Unapplied £'000	Mvt unsave Reserves £'000
Adjustment between accounting basis and funding basis				
Reversal of entries included in the Surplus or Deficit on the Provision of Services in relation to capital expenditure (these items are charged to Capital Adjustment Account - CAA):		10,929	(19,269)	8,340
Holiday pay (transferred to the accumulated absences reserve)	24	(26)	0	26
Pensions costs (transferred to (or from) the Pensions Reserve)	24	100	0	(100)
Financial instruments (transferred to the financial instruments adjustments account)	24	(52)	0	52
Adjustment to Revenue Resources		10,951	(19,269)	8,318
Application of capital grants to finance capital expenditure		0	8,768	(8,768)
Adjustments to Capital Resources		0	8,768	(8,768)
Total adjustments		10,951	(10,501)	(450)

13. Expenditure and Income Analysis by Nature

The Combined County Authority's expenditure and income is analysed as follows:

2023/24 £'000		2024/25 £'000
	<u>Expenditure</u>	
939	Employee expenses	7,707
1	Premises	96
1	Transport	32
332	Supplies and services	13,193
8,114	REFCUS Expenditure	60,248
9,387	Total Expenditure	81,276
	<u>Income</u>	
0	Other Operating Income	(1,765)
0	Fees, charges and other service income	(122)
(748)	Interest and investment income	(3,475)
(38,382)	Government grants and contributions	(99,034)
(39,130)	Total Income	(104,397)
(29,743)	(Surplus) or Deficit on the provision of Services	(23,121)

14. Expenditure and Funding Analysis (EFA)

The Expenditure and Funding Analysis (EFA) shows the difference between net income and expenditure and the position compared to presenting that information in accordance with the Code in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated between the Combined County Authority's services. There were no adjustments in 2023/24.

	2024/25		
	Expenditure / Income chargeable to General Reserve Balance £'000	Adjustments between funding and Accounting Basis £'000	Net Expenditure in the CIES £'000
Chief Executive	1,458	(4)	1,454
Mayor's Office	(564)	(51)	(615)
Place	2,647	8,483	11,130
Resources	8,561	(444)	8,117
Strategy and Inclusive Growth	33	11	44
Net Cost of Services	12,135	7,995	20,130
Other Income and Expenditure	(24,303)	(18,948)	(43,251)
Total	(12,168)	(10,953)	(23,121)
Opening General and Earmarked Reserves	(10,493)		
Surplus/(Deficit) on General Reserve	(12,172)		
Closing General and Earmarked Reserves	(22,665)		

14.1 Analysis of Statutory Adjustments included in the EFA

The Other adjustments comprise of £26k for accumulated absences adjustment and a fair value adjustment on a long-term debtor of £52k.

Expenditure and Funding Analysis Statutory Adjustments	2024/25			
	Net Capital	Net Pension	Other	Total
	£'000	£'000	£'000	£'000
Chief Executive	0	(7)	3	(4)
Mayor's Office	0	(52)	1	(51)
Place	8,499	(17)	1	8,483
Resources	(428)	(22)	6	(444)
Strategy and Inclusive Growth	0	(4)	15	11
Net Cost of Services	8,071	(102)	26	7,995
Other Income and expenditure	(19,000)	0	52	(18,948)
Deficit/(Surplus) on Provision of Services	(10,929)	(102)	78	(10,953)

15. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below together with the resources that have been used to finance the expenditure.

2023/24 £'000		2024/25 £'000
0	Opening Capital Financing requirement	0
	EMCCA delivered capital schemes	
8,114	Revenue expenditure funded from capital under statute	60,248
0	Property Plant and Equipment	428
	Sources of finance	
(8,114)	Capital grants	(60,675)
0	Closing Capital Financing Requirement	0

16. Property Plant and Equipment

The £428k of assets shown in the Balance Sheet relate to the purchase of IT and office equipment. Assets are not depreciated in the year of acquisition. There were no assets in 2023/24.

17. Short-term Debtors

As the balance sheet represents the position at the end of the financial year, there are monies owed to the Combined County Authority at that date which are yet to be received as cash. The following analysis shows the amounts owed to the Combined County Authority which had not been received by 31st March 2025.

2023/24 £'000		2024/25 £'000
59	Central Government bodies	771
30,679	Other local authorities	101
0	Other entities and individuals	669
100	Prepayments	73
30,838	Total Short Term Debtors	1,614

18. Long-term Debtors

Long term debtors represent debts where repayment is expected to take longer than 12 months. Nottingham City Council (NCC) advanced to DSF the sum of £2.150m. With effect from 1 April 2019, NCC novated the contract to Derbyshire County Council (DCC), acting on behalf of D2N2 Local Enterprise Partnership (LEP).

In 2024/25 DCC, acting on behalf of D2N2 LEP transferred its rights and obligations under the loan agreement to EMCCA. The outstanding balance of the loan as at 31st March 2025 was £1.555m. £280k was reclassified as short term i.e. due within 1 year, and hence the £1,223k on the balance sheet is wholly for DSF. No provision was made for loss allowance for the DSF loan. Quarterly repayments were made in full in the year and is expected to continue in the future. This will be kept under review.

19. Cash and Cash Equivalent

There were no cash and cash equivalents in the prior year.

	31-Mar-25 £'000
EMCCA Fund Bank Account Balance	1,208
Bank Instant-Access Deposit Accounts	23,270
Short-Term Deposits	55,000
Total Cash and Cash Equivalents	79,478

20. Short-term Creditors

Organisations that EMCCA owes money to, with repayment falling due within one year.

2023/24 £'000		2024/25 £'000
0	Central Government bodies	(59)
(1,058)	Other local authorities	(2,117)
(37)	Other entities and individuals	(4,624)
0	Receipt in Advance	(23,177)
(1,095)	Total Short Term Creditors	(29,977)

21. Financial Instruments

Financial Instruments included in the Balance Sheet are in the table below.

Current £'000	Balance Sheet values	2024/25 Long -term Current £'000 £'000	
	Financial Assets		
30,738	Included within debtors	1,223	700
0	Cash and cash equivalents	0	79,478
30,738		1,223	80,178
	Financial Liabilities		
(1,058)	Included within Creditors	0	(6,773)
(1,058)		0	(6,773)

The debtors figure includes a long-term loan to DSF Refractories and Minerals Ltd. The ownership and operation of this loan was passed to EMCCA during the year from D2N2 LEP, and it matures 32 March 2029. A fair value assessment has been done by MUFG Corporate Markets, our Treasury Management adviser using the income method. This is the only borrowing or lending.

	Balance Sheet Value £'000	Fair Value £'000
DSF Loan - Long-term	1,223	1,223
DSF Loan - Short-term	280	280
Total	1,503	1,503
Sensitivity		
If rates had been 1% higher the total fair value would be		1,469

Other current debtors and creditors are carried at full value. No provision for loss was appropriate after assessing the debts. The amounts included as financial instruments within debtors and creditors are trade counterparties only.

The Cash and Cash Equivalents figure, as at 31 March 2025 includes £55.0m placed with the Debt Management Office (DMO) and £24.4m with UK banks. As the DMO is within the scope of HM Treasury and is deemed low risk. They are carried at full value because the interest rate risk and credit risk have been assessed as not material by MUFG Corporate Markets our Treasury management advisor.

22. Financial Risk

Credit risk is managed throughout the year by ensuring that treasury investments are only placed with organisations of high credit quality and for limited time periods, as set out in the Treasury Management Strategy.

The Combined County Authority has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. There is no significant risk that it will be unable to raise finance to meet its commitments.

The Finance Team assesses the risk from interest rate exposure, with professional advice from its Treasury Management Advisors, which feeds into the setting of the annual budget and is used to update the forecasts during the period. This allows any adverse changes to be accommodated.

There are no foreign exchange risks.

23. Usable reserves

Balance 01-Apr-24 £'000	Name	Transfer In £'000	Transfer Out £'000	Balance 31-Mar-25 £'000	Purpose of Reserve
10,493	General Fund	12,172	18,378	4,287	A statutory fund available for meeting unforeseen events and risks
0	Elections Reserve	4,000	0	4,000	To cover potential costs of the next Mayoral election.
0	EMCCA Transition	1,756	0	1,756	To fund one off roles and activities to help EMCCA complete its transition from a start-up entity in 2024-25 to a more mature organisation.
0	Programme Fund	4,456	0	4,456	To support new projects or programmes during the course of a year.
0	Investment Zones	340	0	340	To provide support to grant recipients towards expenditure lawfully incurred or to be incurred by them in delivering the Investment Zone.
0	Bootcamps Wave 5	311	0	311	For the delivery of and management of Skills Bootcamps in our geographical and neighbouring areas in agreement with relevant local authorities. The Skills Bootcamps shall be aligned to employer needs and directly linked to employment opportunity.

0	Local Area Energy Planning	267	0	267	To fund committed expenditure for the roll out of the Local Area Energy Planning across the region through Midlands Net Zero Hub.
0	Transport Transition	1,000	(213)	787	Resource costs to support the transport transition.
0	Transport Reserve	6,000	0	6,000	To further facilitate the transport transition.
10,493	Total	30,763	18,165	22,665	

Capital Grants Unapplied Reserve

This table details Capital Grants Received in the year, but where the expenditure has yet to be incurred.

01-Apr-24 £'000		Transfer In £'000	Transfer Out £'000	31-Mar-25 £'000
9,500	Capital Investment Fund	19,000	(428)	28,072
0	Investment Zones	269	0	269
7,936	Retrofit Housing	0	(7,936)	0
1,200	Gigahubs	0	(49)	1,151
166	Markham Vale Cycling	0	(166)	0
189	Low Carbon Skills	0	(189)	0
259	Homelessness	0	0	259
19,250	Total Capital Grants Unapplied Reserve:	19,269	(8,768)	29,751

The multi-year Capital Investment Fund is a funding source that comes into the region through EMCCA to support strategic priorities. The system of identifying and allocating projects for funding will be developed as the investment criteria, investment pipeline and partnership arrangements that underpin its ongoing review and delivery are more fully developed. This includes oversight by the Investment Committee.

Work is now well underway, working with constituent councils, other local authorities and regional partners to gain an understanding of and co-develop priorities for longer-term investment on the basis of thematic portfolios. For example, six capital projects have already been committed to in 2024/25 for delivery from 2025/26.

24. Unusable reserves

There were no unusable reserves at the end of the prior year.

Summary	31-Mar-25 £'000
Capital Adjustment Account	(428)
Financial Instruments Adjustment Account	52
Pensions Reserve	(100)
Accumulated Absences Account	26
Balance at 31 March 25	(450)

Capital Adjustment Account

The capital adjustment account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or additions to those assets under statutory provisions. The account is debited with the cost of acquisition, construction or subsequent costs as depreciation, impairment losses and amortisations are charged to the CIES. The account is credited with capital grants and contributions.

2023/24 £'000		2024/25 £'000
0	Balance as at 1st April 24	0
	Reversal of capital expenditure debited to the CIES	
8,114	Revenue Expenditure Funded from Capital under Statute	60,248
	Capital financing applied in the year	
0	Capital grants and contributions credited to the CIES applied to capital financing	(51,908)
(8,114)	Application of Grants to Capital Financing from Capital Grant Unapplied Account	(8,768)
0	Balance as at 31 March 25	(428)

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General fund Balance accruing for paid absences earned but not taken in year i.e. annual leave entitlement not taken at 31st March 2025. This avoids impact on the General Fund.

	2024/25 £'000
Balance at 1st April 24	0
Settlement of accrual made at the end of the preceding year	0
Amount accrued at the end of the current year	26
Balance at 31 March 25	26

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Combined County Authority accounts for post-employment benefits in the comprehensive income and expenditure statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Combined County Authority makes

employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. There were no pension arrangements in the prior year.

Pensions Reserve

	2024/25 £'000
Balance at 1st April 24	0
Remeasurement of the net defined benefit liability / (asset)	(2)
Reversal of items relating to retirement benefits debited or credited to the surplus and deficit on the provision of services in the Comprehensive Income and Expenditure Statement	361
Employer's pensions contribution and direct payments to pensioners payable in the year	(259)
Balance at 31 March 25	100

25. Cash Flow Adjustments

25.1 Cash Flow Statement - Non cash Adjustment

01-Apr-24 £'000		31-Mar-25 £'000
(30,838)	Decrease / (increase) in Short Term Debtors	29,224
0	Decrease / (increase) in Long Term Debtors	(1,223)
1,095	Increase / (decrease) in Short Term Creditors	28,882
0	Pensions Adjustment	(98)
(29,743)	Non cash adjustment	56,785

25.2 Cash Flow Statement – Investment Activities

01-Apr-24 £'000		31-Mar-25 £'000
0	Purchase of Property, Plant and Equipment	(428)
0	Investing adjustment	(428)

26. Events after the Reporting Period

The D2N2 Local Enterprise Partnership (LEP) has transferred its functions and staff to the Combined County Authority. This integration, part of the devolution deal for the East Midlands, aims to create a more unified approach to economic development and regional growth. Staff and contracts were novated in the financial year 2024/25 and the associated expenditure and income have been included in the Combined County Authority's 2024/25 statement of accounts.

The LEP also held £11m in reserves, the agreement for these cash balances to be transferred to the Combined County Authority were signed in April 2025, post the financial reporting period, it is therefore considered a non-adjusting event under IAS 10. This has therefore not been reflected in the statement of accounts for 2024/25 and will be recognised in the statement of accounts for 2025/26

GLOSSARY OF TERMS

Accounting Standards

International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS) are the accounting standards that the Combined County Authority are required to follow when producing the financial statements.

Accruals

An accounting principle that recognises income and expenditure as they are earned or incurred, not as money is received or paid.

Actuarial Assumptions

Predictions made for factors that will affect the financial position of the pension scheme.

Actuarial Gains and Losses

Changes in the estimated value of the pension fund because events have not coincided with the actuarial assumptions made or the assumptions themselves have changed.

Budget

A budget is a plan of approved spending during a financial year.

Capital Programme

The plan of approved spending on non-current assets.

CIES

The Comprehensive Income and Expenditure Statement

CIPFA

The Chartered Institute of Public Finance and Accountancy, the institute that governs accounting in the public sector.

Credit loss

Cash shortfalls measured by the difference between the net present value of all the contractual cash flows that are due to the Combined County Authority in accordance with the contract for the instrument and the net present value of all the cash flows that the Combined County Authority expects to receive.

Deficit

This occurs when spending exceeds income.

Depreciation

The measure of wear and tear, consumption or other reduction in the useful economic life of a non-current asset.

EMCCA

East Midlands Combined County Authority

Fair Value

The amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

Financial Instrument

Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Year

The Combined County Authority's financial year runs from 1 April to the following 31 March.

IAS

International Accounting Standards

Impairment of Asset

An asset has been impaired when it is judged to have lost value other than through normal use.

Intangible Assets

An item which does not have physical substance (for example software) but can be identified and used by the Combined County Authority over a number of years.

Lease

A finance lease is an agreement to pay for an asset in regular instalments where the person paying the lease (the lessee) is deemed to own the asset. In contrast, an operating lease occurs when the lessee is not considered to own the asset.

LEP

Local Enterprise Partnerships

LGRP

Local Government Resourcing Partnership

Materiality

An item is material if its inclusion in the financial statements would influence or change the judgement of a reasonable person. If the information would have no impact on the decision maker, it is deemed not material.

Public Works Loan Board (PWLB)

A government agency that lends money to local authorities. Local authorities are able to borrow some or all of their requirements to finance capital expenditure from this source.

Revenue Expenditure Funded from Capital under Statute (REFCUS)

Spending on assets that have a lasting value but are not owned by the Combined County Authority
