

Case Study – AAT Level 1 in Bookkeeping

Adam Garratt

What made you choose this course?

I currently work as a Finance Assistant for a charity in Derby and wanted to upskill, so I could understand the role better, become more confident and be able to take on more responsibility.

What was your experience like during the course?

It was excellent from start to finish. I had a very good tutor that explained things clearly and took time with the class, to ensure we understood the subject matter. It was also good learning with others and sharing lived experience of the subject.

What challenges did you overcome during your learning journey?

Having been out of learning for a long time, it took time to get used to being in a learning environment again. Finding time to study at home around work and life commitments was always challenging, but I knew I had to make the time, if I was to be successful. Luckily, I've had support from work to focus on learning and developing skills.

What impact has this course had on you?

This course has been a very positive achievement, I'm very proud that I passed with 92%! I didn't expect to do this well on the course, so it was a happy surprise. It has all been achieved by hard work and perseverance.

Would you recommend this course to others?

The course is ideal for anyone that wants to progress into bookkeeping/accounting to upskill or for personal development. You have to persevere and keep going if you want to succeed, but it's worth it, as it opens more doors.
